Work Experience

SeaDragon Technology LLC

1/2024 – 7/2026

Development Team Lead

- Coordinated an Agile team of 4 Developers, 1 UX/UI Designer, and 1 Business Analyst (BA) to deliver scalable enterprise web/app solutions on time.
- Bridged the gap between design and development by leading the implementation of complex system architectures for the BMA product.

SeaDragon Technology LLC

9/2023 – 11/2023

UX/UI Designer

- Designed user-centric interfaces for business management applications, decreasing user error rates by 90% through intuitive information architecture.
- Collaborated closely with developers to establish UI components, cutting down design-to-development handoff time by 70%.

Phygital Labs

5/2023 – 8/2023

Frontend Developer

- Developed interactive 3D websites integrated with Blockchain smart contracts, ensuring seamless digital asset transactions and high-performance WebGL rendering.
- Optimized user journeys for physical-to-digital product identification, simplifying the NFC/QR scanning flow to reduce friction for first-time users.

FastCoding VN

5/2022 – 5/2023

Frontend Developer, UX/UI Designer

- Managed full-cycle web projects for Japanese clients, owning the entire process from UI/UX wireframing to responsive frontend implementation.
- Delivered custom web solutions under strict Japanese pixel-perfect standards, achieving clean code architectures and zero major bugs during final delivery.
